DIARY NOTES

DD/S

12 June 1961

25X1A9a

1. I departed at 0700 hours for [REDACTED] where I addressed the students at Dr. [REDACTED]'s Management Course for about half an hour. I stayed through the morning session of the course and had lunch with Dr. [REDACTED]

2. I was very well impressed at the way in which the course got started. I believe twenty-five of the thirty people present participated in the first case and their discussion was lively indeed. It would appear that we have a good group of students both from the standpoint of their experience and their intellectual ability. Dr. [REDACTED] seemed exceptionally well-pleased with the way things got started. It will, of course, be different from the [REDACTED] Course since [REDACTED] is different and his approach is different. However, at this point I am optimistic that it will be a success.

3. I returned from [REDACTED] at about 1400 hours. While at [REDACTED] I talked with [REDACTED] and after my return, to Matt Baird about an MP swimming pool as a part of our construction program next year. As I understand this has been stricken from the plan because they did not feel that we could finance it out of the funds available. I suggested that if this swimming pool were really needed we should go ahead and include it in the plans and build it later on so that we do not have to get new A&E plans.

4. During my discussion with Matt he reported that [REDACTED] who is Secretary of the Project Review Committee, had been to [REDACTED] recently to describe the PRC mechanism to a class. Bill requested a tour [REDACTED] and while on his tour he was generally critical and hostile toward the construction program which was explained to him. Matt said that he has furnished [REDACTED] a paper on this, and if necessary, I plan to speak to Bill about this, since in his capacity as Recording Secretary of the Project Review Committee, he is a little off base in taking this attitude.

5. I have arranged with Shef Edwards to have a briefing at the new building at 1400 hours on Thursday so that I may be up-to-date on his plans for physical security at the new building.

25X1A9a

6. [REDACTED] reported that they have been in touch with the National Security Council and Dr. Kissinger on several occasions and that they are fully prepared to support Dr. Kissinger and the National Security Council in whatever way is necessary. I told Joe that this is fine and that I would assume that this matter was in hand unless I heard something to the contrary.
